SUMMARY

An Information Technology graduate with experience in system development for student-based clients and commission-based projects. Utilizes **AI tools** to improve coding efficiency and productivity while ensuring system reliability. Responsible, detail-oriented, and capable of working independently or as part of a team. Willing to learn new technologies and continuously improve technical skills.

SKILLS

Languages: PHP, JavaScript, Java, HTML, CSS

Frameworks & Tools: Laravel, Tailwind CSS, Bootstrap, Node.js, React, REST APIs, Git/GitHub, VS Code, XAMPP, cPanel, Hostinger

Databases & Services: MySQL, PostgreSQL, SMS APIs (PhilSMS, Semaphore, UniSMS), AI-assisted development (Claude Code, ChatGPT), chatbot integration

WORK EXPERIENCE

Divine Life Damayan Community Inc. — Full Stack Developer (Project-Based) May 2026 – Jul 2026

- Developed and maintained a web-based membership and referral management system — divinelifedamayan.com.
- Built front-end interfaces and back-end features using PHP and MySQL, with CMS-managed landing pages and multi-language support (English, Tagalog, Cebuano).
- Deployed and maintained the live production website serving 1,200+ registered members.
- Utilized AI-assisted tools to improve development speed and productivity.

PowerGiant RMT — Backend Developer (Project-Based) Nov 2025 – Dec 2025

- Developed and maintained backend functionality using PHP and MySQL — powergiantrmt.com.
- Deployed the system to a live environment.
- Assisted in implementing client requirements and system improvements.

J&T Express — Parcel Sorter Mar 2025 – Jun 2025

- Sorted and organized packages for delivery, maintaining accuracy in a fast-paced environment as part of a team.

PROJECTS

Cropsight – PHP · MySQL · JavaScript · Chatbot · SMS

- Rebuilt a crop-monitoring platform with an integrated chatbot assistant and refreshed UI/UX for farmers and agri-technicians.
- Designed dashboards for crop stages, harvest trends, and task scheduling.

QR Attendance – PHP · MySQL · JavaScript

- Built QR-scan attendance tracking that replaces paper logbooks, with records landing in a live dashboard.
- Implemented student lookup and per-session attendance reports.

POS with Barcode – PHP · MySQL · JavaScript · QRLib

- Developed a point-of-sale system with barcode scanning, inventory management, and sales reporting for small retail stores.

EDUCATION

Bachelor of Science in Information Technology 2022 – 2026

- South East Asian Institute of Technology | Tupi, South Cotabato, Philippines
